

STOPS 1 AND 2 Overview & Northern-most Point and Kensico Dam Plaza

The Kensico Dam Plaza is most well known for its massive stone dam wall, which is made of beautiful gray granite. Opposite the wall is the mall, which is home to many outdoor festivals, antique shows, concerts, and open space for walking, jogging or picnicking.

STOP 3 9-11 Memorial "The Rising"

The 9-11 Memorial is known as "The Rising" and features a majestic steel monument that honors the 111 Westchester residents killed in the September 11th terror attacks.

STOP 4 Valhalla Stone Bridge

The Valhalla Bridge dates back to 1925 and was the site of the grand opening of the parkway drive, and the preservation of nature amongst a nearby parkway.

STOP 5 Shagbark Hickories

The Shagbark Hickories are distinctive trees, which are one of the many native trees that have been planted along the Bronx River Walk to preserve this walkway's natural beauty.

STOP 6 Yellow Twig Dogwoods

The Yellow Twig Dogwood is another native tree to this region. It is most notorious for its spectacular year round show, which attracts birds, and its ability to prevent erosion.

STOP 7 Sycamore Trees

The Sycamore Trees line the Bronx River's bank and are distinctive due to their flaking bark.

STOP 8 The Wetlands

The Wetlands consist of Phragmites and Japanese knotweed, neither of which are native to this region.

STOP 9 Westchester County Center

The Westchester County Center is a 5,000 seat multipurpose facility built in 1930 to offer Westchester County residents a wide variety of shows, exhibitions, concerts, civic and sporting events.

STOP 10 White Plains Train Station

The city of White Plains was founded by the first Non Native American settlers in 1683, is only 25 miles from Manhattan, and stands as a gateway between New York City and New England.

STOP 11 Battle Hill Monument

The Battle Hill Monument consists of a reproduction of a British-manufactured field gun and commemorates the Revolutionary War Battle of White Plains, which took place here on October 28, 1776.

STOP 12 Woodlands Viaduct

The Woodlands Viaduct is an impressive structure that was completed in 1922 and created in a way that preserves the natural beauty of the Bronx River Parkway.

STOP 13 Mill Stream Diversion

The remnants of the Mill Stream Diversion are where gates allowed millers to regulate water flow to activate grist, saw, and stone mills situated along the river during the 1800s.

STOP 14 Duckpond/Haubold Gunpowder Mill

The Duckpond is a popular place for residents to sit, reflect and relax. On the southern tip of the pond are the remnants of the stone Haubold Gunpowder Mill, which dates back to the 1840s.

STOP 15 Scarsdale Falls & Tolley Bridge

The Scarsdale Train Station became a regular Metro North stop in 1877 and is located in a picturesque area, adjacent to the village of Scarsdale.

STOP 16 A and B Garth Woods

Garth Woods is one of the most beautiful sections of the reservation, home to a wide variety of birdlife, and is designated an ancient forest by the Sierra Club.

STOP 17 Pond & Flood Plain

This small pond provides a natural retreat for wildlife, plants and animals, and an area of lowland that accommodates the river floodwaters.

STOP 18 Pine Forest

The Pine Forest consists of towering White Pine trees, which provide a bed of needles near the paved pathway of the Bronx River Walk.

STOP 19 Crestwood Train Station

The Crestwood Train Station, a regular stop on the Harlem Line since 1900, is a charming building that famed artist Norman Rockwell immortalized in a painting featured on the cover of the Saturday Evening Post Magazine in 1946.

STOP 20 A and B Crestwood Lake

The 10-acre area that comprises Crestwood Lake is one of the Bronx River Walk's best areas for bird watching including a variety of birds such as Herons, Egrets, ducks of all kinds, Orioles and Kingbirds.

STOP 21 Old Stone Mill and Malcolm Wilson Park

Malcolm Wilson Park is a seven-acre property that was dedicated as a park in 1995. It is named after Malcolm Wilson who served as a New York State Lt. Governor for 15 years and who finished out Nelson Rockefeller's term as New York State Governor after Rockefeller resigned in 1973. Just beyond the park is the Old Stone Mill, one of the earliest cotton mills in North America.

STOP 22 Bronxville Lake

Bronxville Lake is another scenic delight along the Bronx River Walk that offers views of birds, wildlife and beautiful tree specimens.

STOP 23 Bronxville Waterfall

The Bronxville Waterfall can be seen from the wood-railed pedestrian bridge that stretches over the Bronx River. Not only is the cascading water a lovely sight, but it also serves a practical purpose by oxygenating the water for the river's many aquatic organisms.

STOP 24 Swain's Mill

In 1844 Swain's Mill became a water-powered stone factory, but was converted into the headquarters of the Bronx Parkway Commission in 1922. Parts of the foundation of the old mill and the parkway headquarters building can still be seen today.

STOP 25 Overview & Southernmost Point, Palmer Road, Bronxville

Enjoy the world of wonder, sights and sounds, history, architecture and man-made marvels in the lovely natural setting of the 9.6 mile Bronx River Walk, Westchester County's first park, adjacent to America's oldest parkway.

Bronx River Walk

- Covers 25 points of interest along Westchester County's Bronx River Parkway Reservation
- Narrated by Dan Rather
